EDUCATION

Columbia University — **New York, NY**
M.S. in Business Analytics (Columbia Engineering & Columbia Business School) — **Aug 2025 - Dec 2026**
Major Coursework: Machine Learning & Neural Networks, Data Analytics, Marketing Analytics, Probability, Optimization model, Data Mining, Transformer, Digital Product Management, Gen AI for business.

University of Washington — **Seattle, WA**
B.S. in Econometrics, Minor in Informatics, GPA: 3.8/4.0, Dean's List (2022–2025) — **Sep 2021 - Mar 2025**

PROFESSIONAL & PROJECT EXPERIENCE

TalkingData (Tendcloud Tianxia Technology Co., Ltd.) — **Beijing, China**
Product Manager Intern, Data Products — **Jun 2026 – Aug 2026**
- Supported ad measurement product enhancements by mapping workflows across media platforms, SDKs, attribution, and callbacks; configured tracking links and macros for 10+ platforms and designed retry logic for failed callbacks.
- Contributed to an enterprise data insights AI Agent for audience segmentation and profiling, defining parameter confirmation, tool calls, execution status, and feedback for conversational audience creation and report generation.
- Led the design of an internal model pricing database, standardizing fields and naming conventions; defined data mapping and versioning rules to centralize pricing records and improve traceability.
- Designed automated data asset change tracking and aggregated notifications, replacing weekly manual syncs and enabling cross-functional teams to act on critical updates within 30 minutes.

Peblla, Inc. × Columbia IEOR — **New York, NY**
Industry Capstone Practicum, Customer Segmentation & AI Marketing Strategy — **Jan 2026 - May 2026**
- Analyzed 139K restaurant transactions to compare repeat-purchase patterns across customer segments, promotion types, discount levels, and spending thresholds; developed rules linking customer characteristics and business objectives to suitable offers.
- Segmented customers using RFM metrics and developed 7-, 14-, and 30-day repeat-purchase prediction models using XGBoost and logistic regression to support audience targeting and identify retention opportunities.
- Translated customer insights, predictive models, and promotion rules into a RAG-powered AI marketing MVP, providing audience and offer recommendations with directional revenue and ROI estimates.

Shenwan Hongyuan Securities Co., Ltd., Research Division (SWS Research) — **Shanghai, China**
Sell-Side Securities Analyst Intern — **Oct 2024 - Nov 2024**
- Researched 10+ publicly listed internet and technology companies in Hong Kong and the U.S., examining industry trends and the implications of AI and cloud computing for business models and long-term growth.
- Assessed revenue composition, operating metrics, and growth drivers using financial statements, earnings calls, and industry sources to support company outlook and valuation analysis.
- Contributed to 6 equity research reports, synthesizing financial data and market insights into findings for institutional clients.

Cainiao Smart Logistics Network Limited (Alibaba Group) — **Hangzhou, China**
Product Manager Intern — **Aug 2023 - Sep 2023**
- Contributed to a global employee management system serving 20+ international branches, separating standardized rules from localized attendance, payroll, and workforce requirements.
- Partnered with cross-functional teams to prioritize features by business value and complexity, supporting core module delivery.
- Coordinated technical reviews, validated workflows and business rules, and improved internal platforms based on user feedback.

China United Network Communications Group Co., Ltd. (China Unicom) — **Qingdao, China**
Customer Value Management & Strategy Analyst Intern — **Jun 2023 - Aug 2023**
- Analyzed spending and service usage for 500K+ customers, developing 30+ behavioral attributes and segmentation rules to identify churn risks and upsell opportunities.
- Defined target segments for data plans, broadband upgrades, and 5G services based on spending patterns, recharge and usage.
- Helped implement targeting rules in a customer engagement platform; targeted campaigns achieved a 27% call connection rate (+3 pp) and 14% conversion rate (+2 pp) versus standard targeting.

LEADERSHIP EXPERIENCE

Chinese Soccer Club at University of Washington — **Seattle, WA**
Co-founder and President — **Mar 2022 - Jun 2025**
- Co-founded and grew a student club to 400+ members and established partnerships with 5+ local sponsors to support operation.
- Organized tournaments and social events, coordinating venues, sponsor resources, and media promotion to support engagement.
